

Liquid Sunshine Plus Kelp 5-1-1

LIQUID FISH FERTILIZER WITH KELP

Fish-based nutrition with the added value of kelp.

PRODUCT OVERVIEW

Liquid Sunshine Plus Kelp combines BWF Banducci's fish-based 5-1-1 fertilizer with kelp to provide nitrogen plus naturally derived seaweed components. It is positioned for growers who want the benefits of a fish fertilizer with an added kelp component in one liquid product.

KEY BENEFITS

- Provides fish-based nitrogen for active plant growth
- Includes kelp as part of the formulation
- Supports a balanced fertility program
- Suitable for soil or foliar application when permitted by the label
- Designed for organic production systems

BEST FIT

Vegetables, flowers, shrubs, lawns, tubers, trees, and crops where fish-based nitrogen plus kelp is desired.

APPLICATION AND USE

Follow the current product label for exact application rates, dilution, handling, and crop-specific directions.

GUARANTEED ANALYSIS

5-1-1

FORM

Liquid Fish Fertilizer with Kelp

DERIVED FROM

Fish solubles, stabilized with sulfuric acid and kelp.
