

Market Maker 4-3-1

LIQUID FISH FERTILIZER

A higher-phosphorus fish fertilizer formulated for bloom and fruit development.

PRODUCT OVERVIEW

Market Maker 4-3-1 combines readily available fish-based nitrogen with increased phosphate compared with BWF Banducci's lower-phosphorus liquid formulations. It is designed for growers who want to shift nutrition toward reproductive growth while maintaining a fish-based nitrogen source.

KEY BENEFITS

- Provides fish-based nitrogen with increased phosphate
- Supports bloom and fruit development
- Useful when phosphorus demand rises during reproductive growth
- Can complement a staged crop fertility program
- Designed for organic production systems

BEST FIT

Bloom and fruiting stages, flowering crops, and fertility programs that call for increased phosphorus.

GUARANTEED ANALYSIS

4-3-1

FORM

Liquid Fish Fertilizer

DERIVED FROM

Fish-based fertilizer formulation. See the current label for the complete derived-from statement.

ORGANIC STATUS

OMRI Listed. Review the current product certification and label before use.
