

Secure Plus 4-6-1

LIQUID FISH FERTILIZER

A high-phosphorus fish fertilizer for bloom, fruiting, and phosphorus-demanding programs.

PRODUCT OVERVIEW

Secure Plus 4-6-1 provides fish-based nitrogen with BWF Banducci's highest phosphorus analysis in the liquid product line. It is intended for fertility programs that require a stronger phosphorus contribution during bloom, fruit set, or other phosphorus-demanding stages.

KEY BENEFITS

- Combines readily available fish-based nitrogen with elevated phosphate
- Supports reproductive growth and fruiting programs
- Provides a higher-phosphorus option within the BWF Banducci liquid line
- Can be integrated into staged crop nutrition programs
- Designed for organic production systems

BEST FIT

Bloom and fruiting stages and crops or fertility programs requiring a higher phosphorus contribution.

APPLICATION AND USE

Follow the current product label for exact application rates, dilution, handling, and crop-specific directions.
