

Super 6-1-1 Plus Kelp

LIQUID FISH FERTILIZER WITH KELP

High-nitrogen fish nutrition combined with kelp.

PRODUCT OVERVIEW

Super 6-1-1 Plus Kelp is BWF Banducci's high-nitrogen liquid fish and kelp formulation. It combines a strong nitrogen analysis with seaweed-derived components for growers seeking aggressive vegetative nutrition in a fish-based liquid program.

KEY BENEFITS

- Provides the highest nitrogen analysis in the BWF Banducci liquid line
- Combines pelagic fish and kelp in one formulation
- Supports vigorous vegetative growth
- Kelp contributes naturally derived seaweed components
- Designed for organic production systems

BEST FIT

High-nitrogen fertility programs, vigorous vegetative growth, and crops where a fish-plus-kelp formulation is desired.

APPLICATION AND USE

Follow the current product label for exact application rates, dilution, handling, and crop-specific directions.

GUARANTEED ANALYSIS

6-1-1

FORM

Liquid Fish Fertilizer with Kelp

DERIVED FROM
